23. Problem: (use additional Sheets if necessary) Under ESDIS direction, the EDAAC will be implementing billing and accounting for ASTER Level-1A and 1B products distributed by the EDC ECS. Billing and accounting for the ASTER Level-1 products will be in the same manner as Landsat-7 Level-0R products are currently handled. The billing and accounting functions will be implemented through the USGS EDC Distributed Ordering, Research and Reporting Network (DORRAN).						
24. Proposed Solution: (use additional sheets if necessary) The EDAAC requests that ECS make the necessary modifications to allow ASTER Level-1A and 1B products to be handled by the ECS in the same fashion that Landsat-7 Level-0R products are currently handled. The estimated need date for this functionality to be on site at EDAAC is the end of February 2002.						
25. Alternate Solution: (use additional sheets if necessary) None.						
26. Consequences if Change(s) are not approved: (use additional sheets if necessary) EDC will be unable to charge for ASTER Level1A and 1B products that are requested by data users.						
27. Justification for Emergency (If Block 15 is "Emergency"):
